EXPERIENCES

Front end developer / e-Epic   Aug 2023 – Present
- Building and designing a website with a focus on UI, using React and TypeScript.
- Collaborating with a team from design planning to sending data to the backend.

Front end developer / Rimse   Aug 2023 – Present
- Designing apps with Figma, and building applications using Next.js and Next UI.
- Developing applications using APIs, handling everything from conception to deployment.

University Administrative Staff / Hannan University   Apr 2015 – Mar 2022
- Designed UI-focused website layouts and brochures for university promotional activities.
- Implemented new initiatives and managed systems involving handling personal information.

SKILLS

Languages : **JavaScript** / NodeJS / HTML / CSS

Frameworks & Libraries : **React** / Next.js / **TypeScript** / express / TailwindCSS / Sass / MaterialUI

Others : MongoDB / Docker / Git / Figm / Microsoft office(Access / Excel)

PROJECTS

Full stack app 🔗 ○   June 2023

My Youtube (React / Node.js / express / MongoDB / TailwindCSS)
- Implement the backend using Node.js to fetch data through APIs and connect it to the frontend.
- Stored data in MongoDB for logged-in users' subscriptions and watch later videos

Front-end, UI 🔗 ○   April 2023

Keep (React.js / Redux)
- Handle operations such as Create, Read, Update, and Delete, making data fetching and manipulation easier.
- Efficiently used Redux for state management, streamlining the application's responsiveness and performance.

Front-end, UI 🔗 ○   Mar 2023

Trivia Guru (JavaScript / jQuery / Bootstrap)
- Effectively utilized JavaScript and jQuery to add interactivity, and user interaction on the quiz platform.
- Leveraged my coding skills to establish a seamless connection between the top page and animation part.

EDUCATION

Web and Movile Aplication Development Diploma   Sept 2022 – Present

Cornerstone International Community College of Canada

Bachelor of International Tourism   Apr 2011 – Mar 2015

Bachelor of International Tourism
