EXPERIENCE

Frontend Developer   Aug 2023 – Present
Summations   *Toronto, Canada*

- Implemented a SSG with Next.js 14, improving server response times by 15%, and enhancing LCP.
- Utilized Sanity CMS for real-time content editing and sharing via GraphQL and REST APIs.
- Crafted custom Mantine UI components, achieving a 20% increase in accessibility score.
- Accurately following the design for pixel-perfect coding, enabling user-centric, responsive websites.

Frontend Developer   Aug 2023 – Dec 2023
e-Epic Technologies   *Vancouver, Canada*

- Maintained existing code and improved quality by testing and debugging the application.
- Built an application with clean, high-quality code, and MVC architecture per business needs.
- Enhanced mobile responsiveness in alignment with Google's mobile-first indexing, leading to higher SEO rankings and improved user experience.
- Collaborated cross-functionally, applying new tech to enhance development processes.

Frontend Developer   March 2023 - July 2023
Rimse Corp   *Osaka, Japan*

- Optimized web assets by implementing code splitting, achieving a 30% reduction in load times and substantial web performance improvements verified by Lighthouse benchmarks.
- Led end-to-end design and development of an application, from conceptualization to UI/UX involvement.
- Translated client requirements into technical specs, and communicated to non-tech stakeholders.
- Utilized Google Analytics to track user behaviour, enhancing user-friendly digital products.

TECHNICAL SKILLS

React | JavaScript | TypeScript | Redux | NextJS | NodeJS | Express | Strapi | MongoDB | Docker | Supabase
Stripe | Sanity | VueJS | HTML | CSS | TailwindCSS | Sass | Material UI | styled-components | Mantine

PROJECTS

Full Stack App (Live Preview | Source Code)   June 2023
My YouTube (React | NodeJS | Express | MongoDB | TailwindCSS)

- Utilized MongoDB for data management and secured authentication with JWT and bcrypt.
